## Caution! Beware of Fake E-mails.

---

---

We have currently become aware that somebody is sending fake, phishing and spoof E-mails (from an email address containing the word "jogmec") in the name of JOGMEC. We have nothing to do with such E-mails.

The emails ask recipients to reply to the sender, but doing so could put you at the following risks and more:

Being victim to fraud

Someone stealing your personal or otherwise important information

Your computer being exposed to virus

If you have received such emails, please do not respond, but delete them from your computer.
