JOGMEC holds Advanced Geothermal Course with GNS Science, SEEQUENT and University of Auckland ~Contributing human resource development in geothermal field~

Japan Oil, Gas and Metals National Corporation (JOGMEC) is pleased to announce that JOGMEC, GNS Science Limited (GNS) , SEEQUENT and University of Auckland will hold the Advanced Geothermal Course together from September 10th to September 14th 2018.

Japan Oil, Gas and Metals National Corporation (JOGMEC), GNS Science Limited (GNS), SEEQUENT and University of Auckland will hold the Advanced Geothermal Course aiming to provide an advanced overview of geothermal engineering using state-of-the-art methodology and simulation tools to Japanese geothermal engineers.

The cooperation between JOGMEC and GNS dates back to 2015 when JOGMEC and GNS signed MOU for bilateral cooperation in the geothermal field. Since then, under the MOU, JOGMEC and GNS have been working together to promote geothermal development through several activities, such as holding workshops.

This inaugural Advanced Geothermal Course will promote an indepth understanding of current best practice technical aspects of geothermal development.

For more information and to register, please see the following for the details of the course:

The course will be conducted in English and will be fee-charging. The registration is now open and is limited to 25 participants. Those who wish to participate in the course, please register through the WEB site. (http://bit.ly/uoa_jp_18)
